100 Student AI Prompts

Study Smarter — Understand, Memorise, Practice, and Ace Exams with AI

How to Use: Copy any prompt, paste into Claude or ChatGPT, and replace [brackets] with your actual subject, chapter, or text. Best used with your NCERT textbook open beside you.

🧠 UNDERSTANDING CONCEPTS

01	Explain Newton's Second Law of Motion in simple words with 2 real-life examples a Class 9 student would relate to.
02	Explain the Second Law of Thermodynamics like I am 5 years old. Use a story or analogy.
03	Explain photosynthesis in simple Hinglish (Hindi + English, the way Delhi students talk). Use a fun example.
04	I didn't understand the concept of compound interest. Explain it using a relatable example — like saving birthday money every year.
05	Explain the difference between mitosis and meiosis using a comparison that makes sense visually, like a factory analogy.
06	What is Ohm's Law? Explain it as if you're a street vendor explaining how electricity flows through a circuit using water as a metaphor.
07	Explain the concept of 'natural selection' in evolution as if you are narrating a survival story. Keep it under 200 words.
08	I'm confused about the difference between speed and velocity. Break it down with 2 examples where they're the same and 2 where they're different.
09	Explain what a derivative is in calculus without using any math notation. Just pure words and a relatable daily-life analogy.
10	What is opportunity cost in economics? Explain it using a student's daily decision — like choosing between studying and watching Netflix.

📊 COMPARISON TABLES

11	Compare gene flow vs. genetic drift. Create a table with at least 5 parameters — definition, cause, effect on genetic diversity, examples, and scale.
12	Make a comparison table between the French Revolution and the Russian Revolution. Parameters: cause, key figures, outcome, and global impact.

13	Create a table comparing prokaryotic and eukaryotic cells. Include: nucleus, cell wall, size, examples, and reproduction method.
14	Build a comparison table for the 3 forms of government: Democracy, Monarchy, and Dictatorship. Include: decision-making, rights, example countries, and stability.
15	Compare AC and DC current in a table. Include: direction of flow, frequency, source, uses, and conversion ease.
16	Make a table comparing Keynesian Economics vs. Classical Economics. Parameters: role of government, view of unemployment, short vs. long run focus.
17	Create a table comparing the features of Python, Java, and C++ programming languages for a beginner trying to choose where to start.
18	Compare the Mughal Empire and the British Raj in India. Table should cover: period, administration, impact on culture, economy, and legacy.

🌍 REAL-LIFE APPLICATIONS

19	I'm learning probability in school. Use it to solve a real problem — like predicting whether it will rain on my school picnic day. Show your working.
20	Use the concept of speed, distance, and time to solve a real-world problem: I need to catch a train at 9 AM and I live 12 km away. How early should I leave?
21	Apply Newton's Laws to explain why you get pushed back in your seat when a car suddenly accelerates. Use real numbers if you can.
22	How does the human body use the concept of homeostasis in everyday situations like sweating and shivering? Give 3 specific examples.
23	Use statistics to explain why cricket selectors look at a batsman's average AND strike rate instead of just one number. Show why both matter.
24	Apply the water cycle concept to explain why Mumbai gets so much rain during monsoon while Rajasthan stays dry. Make it geographic and relatable.
25	I'm learning about acids and bases. Explain how this knowledge applies in cooking — like why we add baking soda to idli batter or lemon to curd.
26	Use the concept of supply and demand to explain why movie ticket prices spike on weekends and during festival releases in India.

⚡ THE 80-20 RULE (EXAM PREP)

27	I want to learn about the French Revolution. Give me the most important 20% of concepts that will help me understand 80% of it. NCERT Class 9.

28	What are the top 20% of topics in Class 10 Science (NCERT) that are most likely to come in board exams? Focus on high-weightage areas.
29	Give me the 80-20 summary of the Rise of Nationalism in Europe (Class 10 NCERT). What are the must-know names, dates, and turning points?
30	I have 2 days to revise Class 12 Economics. What is the 20% of the syllabus I should focus on to cover 80% of likely exam questions?
31	What are the most important formulas and theorems in Class 10 Mathematics? List the 20% I must know cold before the board exam.
32	Give me the 80-20 breakdown of the chapter 'Heredity and Evolution' from Class 10 NCERT Science. What must I know vs what I can skip?
33	I need to revise World War 1 for a history exam tomorrow. Give me the 5 most important things I must know — causes, key events, consequences.
34	What is the most exam-important 20% of Organic Chemistry for Class 11 (NCERT)? Focus on reactions and concepts that appear most in questions.

🎵 MEMORY TECHNIQUES

35	What are the most important facts, dates, and figures about the Rise of Nationalism in Europe (Class 10 NCERT)? Give me a memory technique — acronym, story, or rhyme.
36	Create a mnemonic to remember the order of planets in our solar system. Make it funny and Indian-culture-relevant.
37	Help me remember the periodic table's first 20 elements using a story or song. Make it catchy enough to remember overnight.
38	I keep forgetting the bones of the human hand. Create a memory story or visual peg system to remember all of them in order.
39	Create a memory palace technique to remember the 5 types of soil in India, their locations, and the crops they support.
40	Help me remember all the amendments to the Indian Constitution (important ones) using a creative recall method. Class 11-level.
41	I can never remember the difference between 'affect' and 'effect'. Give me a trick, story, or rule that will make it stick forever.
42	Create a short rhyming poem (like a jingle) to help me remember the steps of the Calvin Cycle in photosynthesis.

✍️ CREATIVE LEARNING (SONGS & POEMS)

43	Write a short rhyming poem about the periodic table that includes at least 10 elements and their symbols. Make it fun to sing.
44	Write a story (under 300 words) that explains how a nerve impulse travels from a finger touching a hot surface to the brain and back. Make the characters be the neurotransmitters.
45	Explain the water cycle as a rap song. Include all 4 stages: evaporation, condensation, precipitation, and collection.
46	Write a 3-verse poem that explains the causes of World War 1 using the MAIN acronym (Militarism, Alliances, Imperialism, Nationalism).
47	Create a fun tongue twister or chant that helps Class 8 students remember the parts of speech: noun, verb, adjective, adverb, pronoun, preposition, conjunction, interjection.
48	Write a 'movie trailer' style description of the French Revolution — as if it were a Bollywood film. Dramatic, fast-paced, and includes real historical events.

📅 STUDY SCHEDULES

49	Create a weekly study schedule for a Class 10 student who has 2 hours on weekdays and 4 hours on weekends. Must cover: Maths, Science, SST, English, Hindi equally.
50	I have CBSE board exams in 6 weeks. Build me a subject-wise revision plan. I'm weakest in Maths and strongest in English. Prioritize accordingly.
51	Make a 1-week intensive study plan for JEE aspirants covering Physics, Chemistry, and Mathematics. Include topic coverage per day and 1 mock test day.
52	I'm a UPSC aspirant studying for Prelims in 3 months. Build a daily schedule covering GS Paper 1 and 2, with newspaper reading time included.
53	Create a Pomodoro-based study plan for a student who gets easily distracted. Include: study time, break time, and what to do in breaks (not phone-based).
54	I have 10 days before my Class 12 Physics board exam. Build a day-by-day revision plan covering all chapters based on their weightage in the paper.
55	Design a 30-day reading plan for someone who wants to finish their entire Class 9 History NCERT book (chapter by chapter) with notes and self-quizzes.

❓ QUIZ YOURSELF

56	Act as QuizGPT. Ask me 5 multiple choice questions on Organic Chemistry (Class 11 NCERT). Wait for my answers before showing the answer key.
57	Create a 10-question True/False quiz on the chapter 'Federalism' from Class 10 Political Science NCERT. Mix easy and hard questions.

58	I want to test myself on the Indian Freedom Movement (1857-1947). Give me 8 questions — 4 factual, 4 analytical. No answer key yet.
59	Act as a strict examiner. Give me 5 short-answer questions (3 marks each) on 'Electricity' from Class 10 Science. Evaluate my answers when I submit.
60	Create a crossword-style clue set (10 clues) for the topic 'The Human Digestive System.' I'll try to fill in the blanks.
61	Give me a 5-question fill-in-the-blanks quiz on chemical equations (Class 10). Don't show answers until I've answered all 5.
62	Act as a UPSC Prelims question paper. Give me 10 MCQs on Indian Polity (Articles and Amendments). Standard exam format with 4 options each.
63	I just studied Trigonometry (Class 10). Hit me with 6 problems of increasing difficulty. Grade them only after I've attempted all.

📝 ESSAY & WRITING HELP

64	Help me write an essay on 'Climate Change and India' for a Class 12 exam. 500 words. Include: intro, 3 arguments, real Indian examples, conclusion.
65	Review my essay on World War 1 and give me: (a) a rating out of 10, (b) 3 factual corrections, (c) 3 writing improvements, and (d) a better conclusion.
66	I have to write a debate speech arguing FOR reservation in education (India). Give me 4 strong arguments with examples and a powerful 3-line opening.
67	Help me write a persuasive letter to my school principal asking for a longer lunch break. Format it correctly. Tone: respectful but confident.
68	Give me 5 essay topic ideas for a school magazine on the theme 'Technology and Youth.' Rank them by originality.
69	Review this paragraph for grammar, clarity, and impact: [paste your paragraph here]. Give specific line-by-line suggestions.
70	Write a model answer for: 'Explain the impact of globalisation on Indian farmers.' (Class 10 level, 150 words). Then explain what made it a good answer.

🔍 FEEDBACK & SELF-ASSESSMENT

71	I wrote the following summary of the French Revolution. Find factual errors, rate my understanding out of 10, and tell me what I missed: [paste your text here]
72	I answered this exam question: [question + your answer]. Act as an CBSE examiner and mark it according to the official marking scheme. Give feedback.

73	Here are my notes on Heredity and Evolution. Tell me: (a) What I got right (b) What's missing (c) What's incorrect. Be honest and specific.
74	I'm going to explain how a nuclear reactor works in my own words. Correct me where I'm wrong and fill in gaps: [your explanation here]
75	I made a mind map of the Mughal Empire. Here are the branches: [list them]. Rate the structure and suggest missing connections or topics.

🗂️ NOTE-TAKING & SUMMARISATION

76	Summarise Chapter 1 ('The Rise of Nationalism in Europe') from Class 10 NCERT History in under 300 words. Use headings and key bullet points.
77	Convert this dense paragraph from my Economics textbook into a clean, easy-to-revise set of bullet points: [paste paragraph here]
78	Create a one-page cheat sheet for the chapter 'Light — Reflection and Refraction' from Class 10 Science. Include formulas, definitions, and diagrams in text form.
79	Help me create Cornell Notes format for the topic 'Federalism in India.' Include: main notes column, cue questions column, and a summary at the bottom.
80	Build a mind map (in text/outline format) for the topic 'Carbon and Its Compounds' (Class 10 Science). Include all sub-topics and connections.
81	Give me a 5-bullet TL;DR for each chapter of the Class 9 NCERT Economics textbook. Just the essential ideas per chapter.

🗣️ LANGUAGE LEARNING

82	I want to improve my English essay writing. Give me 10 transition phrases I can use to connect ideas, with example sentences for each.
83	From now on, you are my English tutor. Speak to me only in simple English — the way an educated Delhi person would talk to a student. Understood?
84	I'm writing a formal email to a teacher asking for extra time on an assignment. Correct my draft and explain each change: [paste draft here]
85	Give me 10 commonly misused words in English (like affect/effect, there/their/they're) with clear rules and 2 example sentences each.
86	Help me expand my vocabulary for competitive exams. Give me 10 high-frequency words with: meaning, a sentence, and a memory trick for each.

🧩 PROBLEM SOLVING & MATHS

87	Solve this word problem step by step and explain your logic at each step: 'A train travels 360 km in 4 hours. Another train leaves 1 hour later going 90 km/h. When do they meet?'
88	I keep making mistakes in quadratic equations. Walk me through solving $x^2 - 5x + 6 = 0$ using 3 different methods, and explain which method is fastest in exams.
89	Give me 5 practice problems on percentages that get progressively harder. Solve the first one as a worked example, then let me try the rest.
90	Explain how to approach data interpretation questions in competitive exams (like SSC or CAT). Give me a bar chart description and walk me through how to solve it.
91	I'm stuck on probability. Explain conditional probability with a card game example and a cricket example. Then give me 2 practice problems.

🔬 SCIENCE & EXPERIMENTS

92	Explain the steps of a titration experiment in Chemistry as if you're my lab partner guiding me in real time. Include safety steps and what to watch for.
93	I have to write a lab report for an experiment on the refraction of light. Give me the format with headings, and fill in what the standard results and observations should look like.
94	Design a simple at-home experiment to demonstrate osmosis using potato slices and salt water. Include: hypothesis, materials, steps, expected results, conclusion.
95	Explain the difference between hypothesis, theory, and law in Science using 3 examples from the Class 10 syllabus.

🎓 EXAM DAY & STRATEGY

96	Give me a 10-point exam day checklist for a CBSE Board exam. Include: the night before, morning of, and during-exam strategies.
97	I have 3 hours to complete a 40-mark History paper. How should I divide my time per question type? Give a timed strategy.
98	What are 5 common mistakes students make in Class 10 Science board exams? For each, give the correction and a quick tip to avoid it.
99	Teach me how to write a 5-mark answer for Social Science in CBSE format. Use the topic 'Impact of Globalisation on India' as the example.
100	I just failed a mock test badly and I feel demotivated. Give me a 3-step recovery plan: what to do today, this week, and in the next 2 weeks before the real exam.
